

TO WHOM IT MAY CONCERN,

We would very much appreciate the opportunity to review photographic and cinematographic images of your horse on behalf of our client for the purpose of facilitating prepurchase evaluation.

I. If possible, please send the following **PHOTOGRAPHIC IMAGES** of the horse standing squarely on a firm and level surface:

- Front view of both front feet together (1 image).
- Front view of both front legs together (1 image).
- Lateral (from the side) views of each front and each back foot individually (4 images total).
- Side view of the entire horse (from both right and left sides; 2 images total).
- Rear view of both back legs together (1 image).

IIa. Please send the following **CINEMATOGRAPHIC (VIDEO) FOOTAGE** of the horse moving on a flat and hard (e.g. grippy asphalt or firm grass) surface:

- Walking in hand on a loose lead (straight line).
- Trotting in hand on a loose lead (straight line).
- Longeing (or free longeing) in both directions at a walk and trot (if feasibly safe for the horse).

IIb. Please send the following **CINEMATOGRAPHIC (VIDEO) FOOTAGE** of the horse moving on a flat and soft (e.g. arena) surface:

- Longeing (or free longeing) in both directions at a walk, trot, and canter.
- Under saddle at all gaits (if applicable).
- Jumping (if this is a normal activity for the horse).

III. If possible and available, we would also enjoy the opportunity to review any **RADIOGRAPHIC STUDIES** of the horse that might help to expedite its potential purchase.

Thank you for your time and effort in support of our remote assessment. Our mutual client will contact you regarding the next steps.

Sincerely,

BOB GRISEL, DVM
